InterXion Announces Filing of Schedule 14D-9 in Connection with Proposed Strategic Stock-for-Stock Combination with Digital Realty

AMSTERDAM 30 January 2020 – InterXion Holding N.V. (NYSE: INXN), a leading European provider of carrier and cloud-neutral colocation data centre services, today announced that it has filed a Solicitation/Recommendation Statement on Schedule 14D-9 with the U.S. Securities and Exchange Commission in connection with the Company’s pending strategic stock-for-stock combination with Digital Realty Trust, Inc. (NYSE: DLR).

The Schedule 14D-9 contains the InterXion Board’s recommendation that shareholders tender into Digital Realty’s exchange offer, pursuant to which InterXion shareholders will receive a fixed exchange ratio of 0.7067 Digital Realty shares per InterXion share. It also contains important background information regarding the transaction, as well as the financial fairness opinions received by InterXion from each of Guggenheim Securities and Moelis & Company. InterXion also plans to file a proxy statement for its Extraordinary General Meeting to consider proposals in connection with the transaction. The Schedule 14D-9, proxy statement and other filings related to the transaction will be made available on the Investor Relations section of InterXion’s website, as well as www.sec.gov.

The Extraordinary General Meeting of InterXion is scheduled to take place on 27 February 2020, beginning at 10:00 a.m. Central European Time. The meeting will be held at the Novotel Hotel, Taurusavenue 12, 2132 LS Hoofddorp, The Netherlands. InterXion shareholders will consider proposals related to the post-offer reorganization of the Company following completion of the exchange offer. The proposals to be voted on at the Extraordinary General Meeting are in respect of customary Dutch transaction formalities to be taken following the completion of the exchange offer, which would result in Digital Realty becoming the sole owner of all or substantially all of InterXion’s business operations. The proxy statement will contain the InterXion Board’s recommendation that shareholders vote in favor of the proposals to be considered at the Extraordinary General Meeting. All shareholders of record of InterXion ordinary shares as of the close of business on 30 January 2020 will be entitled to vote their shares either in person or by proxy at the Extraordinary General Meeting.

“InterXion’s combination with Digital Realty brings together two highly complementary businesses, allowing each to continue building on its existing business while enabling the combined company to better serve its global customer base,” said David Ruberg, InterXion’s Chief Executive Officer. “We operate in a dynamic industry, in which greater scale, global reach and stronger balance sheets will enhance our ability to meet the evolving requirements of our customers and create a significant opportunity to generate long term value for all of our stakeholders.”

Mr. Ruberg continued, “As outlined in our filing made yesterday, over the past five years, the InterXion Board and management team assessed a wide range of strategic options to drive long-term value creation. The Company and its advisors held substantive discussions with eight other parties in addition to Digital Realty, resulting in six of the other parties meeting with InterXion’s senior management, three submitting written proposals, and two making oral proposals. As a result of this comprehensive review, and as compared to the long-term potential of our standalone plan, the Board concluded that the proposed combination with Digital Realty represents the most compelling opportunity to maximize value for all InterXion stakeholders.”

As previously announced on 29 October 2019, the combination of InterXion and Digital Realty will create a global provider of data center, colocation and interconnection solutions with enhanced scale, capabilities and leadership in high-growth markets. The benefits of the combination of InterXion and Digital Realty include:

- **Expanding Communities of Interest Across a Broader Global Platform:** The opportunities for InterXion to instill and implement its proven expertise in generating valuable communities of interest in highly connected data centers across Digital Realty’s international footprint are substantial.
- **Complementary European Footprint and Product Offering:** InterXion’s European business is highly complementary to Digital Realty’s European footprint, and together, the companies will create a

leading pan-European data center presence, offering consistent, high-quality services with low-latency access to approximately 75% of the GDP in Europe.

- **Enhances Ability to Serve Customers Across Market Segments:** The combined organization will be able to meet the growing global demand from cloud and content platforms, IT service providers and enterprises seeking colocation, hybrid cloud and hyperscale data center solutions.
- **Creates Substantial Anticipated Cost Efficiencies and Financial Benefits:** The size and scale of the combined company is expected to produce an enhanced and efficient cost structure, reflecting a combination of cost synergies and reduced cost of capital.
- **The Combined Business will be Well Placed to Benefit from Global Secular Drivers:** The industry backdrop is characterised by favorable secular trends driven by immense growth in data, which needs to be collected, processed and transmitted around the world with minimal latency. At the same time, legacy IT architectures are being progressively re-engineered to remain relevant as modern business platforms gain presence.

InterXion and Digital Realty expect that the transaction will close in the first half of 2020, subject to approval by InterXion and Digital Realty shareholders, completion of certain regulatory conditions, completion of the exchange offer and satisfaction of other customary closing conditions.

Guggenheim Securities is acting as financial advisor and rendered a fairness opinion to InterXion, and Moelis & Company also rendered a fairness opinion to InterXion. Debevoise & Plimpton LLP and Greenberg Traurig, LLP (Amsterdam) are acting as legal advisors to InterXion.
